PROFESSIONAL SUMMARY

Senior Frontend Developer specializing in React and Next.js with 8+ years of software engineering experience delivering production UIs for fintech, enterprise, medical, and industrial platforms. Expert in building fast, accessible, and maintainable component-driven interfaces — from complex multi-role admin dashboards to public-facing e-commerce platforms. Strong backend understanding (.NET Core, Node.js, REST APIs) means seamless collaboration with backend teams and the ability to own API integration end-to-end. Shipped real products used by real users at scale.

AREAS OF EXPERTISE

React & Next.js (App Router)	**TypeScript & JavaScript (ES6+)**	**Responsive UI Development**
State Management	**API Integration & Data Fetching**	**Performance Optimization**
Component Architecture	**Admin Dashboards & Data UIs**	**Real-Time UIs (WebSockets)**
SSR / SSG / ISR	**Testing (Jest, Cypress, Playwright)**	**CI/CD & Deployment**

TECHNICAL SKILLS

Core: React 18+, Next.js 14+ (App Router, SSR, SSG, ISR), TypeScript, JavaScript (ES6+)
Styling: Tailwind CSS, CSS Modules, Responsive Design, Mobile-First
State & Data: React Query, Zustand / Redux, Context API, SWR
API & Backend: RESTful API integration, Axios, Fetch, WebSockets, JWT Auth flows
Testing: Jest, React Testing Library, Cypress, Playwright
Performance: Core Web Vitals, Lighthouse, Code Splitting, Lazy Loading, Image Optimization
Tools: Git, Vite, Webpack, Storybook (familiar), Figma to Code, Vercel/AWS deployment
Backend Aware: .NET Core, Node.js, PostgreSQL — can read, write, and debug backend code

PROFESSIONAL EXPERIENCE

Talavest | Senior Frontend Developer

April 2025 – Present Remote | Tabriz, Iran

- Built the complete frontend suite for a live fintech platform: public marketing site, gold e-commerce store, user investment dashboard, and admin management panel.
- Developed in Next.js 14 with App Router — leveraging SSR for SEO-critical pages and client-side rendering for real-time dashboard views.
- Built reusable component library covering charts, data tables, form flows, auth screens, and financial widgets used consistently across all four products.
- Optimized Core Web Vitals across all surfaces: achieved strong LCP/FID/CLS scores on e-commerce and marketing pages.
- Implemented real-time UI updates for portfolio values, price tickers, and transaction history using polling and WebSocket connections.

Tech Stack: *React, Next.js, TypeScript, Tailwind CSS, REST APIs, WebSockets*

Live: *talavest.com | my.talavest.com | panel.talavest.com*

Lsevin — Medical Tourism Platform | **Full-Stack / Frontend Developer**

2024 – 2025 Remote

- Designed and built the patient portal, provider dashboard, and admin panel — three distinct role-based UIs from a single Next.js codebase.
- Implemented multilingual (i18n) UI supporting Persian, English, and Arabic for an international user base.
- Built appointment booking flows, search/filter interfaces, and real-time notification UIs.

Tech Stack: *React, Next.js, TypeScript, Node.js API integration*

Live: *lsevin.com | appmain.lsevin.com*

Shaskam (TCI Contractor) | **Senior Frontend Engineer**

April 2021 – November 2023 Tabriz, Iran

- Led frontend development for the national B2B CRM platform — complex, data-heavy interfaces for nationwide enterprise operations.
- Built real-time operational dashboards in React and Next.js with live data, complex filtering, role-based views, and export capabilities.
- Implemented a dynamic, no-code form builder UI enabling business teams to visually design and configure workflow forms.
- Collaborated closely with backend team on API contracts, data shapes, and performance optimization for large datasets.

Tech Stack: *React, Next.js, TypeScript, REST APIs, Oracle-backed data*

Ifa Sanat Gharb Co., Ltd. | **Frontend / R&D Engineer**

August 2022 – August 2024 Tabriz, Iran

- Built real-time industrial monitoring dashboards with live sensor data charts, alerting panels, and operational KPI displays.
- Developed CRM and ERP management interfaces for production teams — table-heavy UIs with filtering, sorting, and bulk actions.

Tech Stack: *JavaScript, React, WordPress frontend*

Freelance | **Frontend Developer**

January 2021 – October 2022 Remote

- Built a live customer support chat widget — embeddable frontend component with WebSocket-powered real-time messaging (Crisp-like).
- Developed a crypto payment gateway UI: wallet connection, transaction status tracking, and KYC form flow.

Tech Stack: *React, JavaScript, WebSockets, CSS*

Iknow.ir / Arka Data Mining | **Frontend Engineer**

March 2016 – March 2018 Tabriz, Iran

- Built and maintained enterprise Angular-based report designer and generator used by large enterprise clients.
- Developed admin dashboards for government-scale data systems — data tables, charts, filters, and BPMS workflow UIs.

Tech Stack: *Angular, JavaScript, .NET API integration*

EDUCATION

Bachelor of Science — Computer Software Engineering

University of Bonab | 2013 – 2017
